[Software Engineer | Full Stack Developer](#)

July 30, 2025

Hiring Committee
Affirm
Winnipeg, MB

Dear Hiring Manager,

I am excited to apply for the Software Engineer II (Account Management) position at Affirm in Winnipeg, MB. With over 1 year of experience in designing, developing, and deploying scalable software solutions, I am confident that my skills and passion for innovative technologies make me an ideal candidate for this role.

As a highly motivated software engineer with expertise in Python, Kotlin, AWS, Kubernetes, and MySQL, I am well-equipped to contribute to the success of Affirm. My experience in developing scalable software solutions, collaborating with cross-functional teams, and optimizing system performance aligns with the requirements of this position. I am particularly drawn to Affirm's commitment to providing transparent and affordable financial services, and I am excited about the opportunity to be part of a team that is shaping the future of financial technology.

In my current role at Affirm, I have designed and developed scalable software solutions using Python, Kotlin, and AWS. I have also collaborated with cross-functional teams to deliver high-quality products and improved system performance by 30% through optimization and caching techniques. I am eager to leverage my skills and experience to drive success in this role and contribute to the growth and innovation of Affirm.

Thank you for considering my application. I am confident that my skills and passion for innovative technologies make me an ideal candidate for this role. I look forward to discussing my application and how I can contribute to the success of Affirm.

Warm Regards,
Sumeet Aulakh
